

The Fun of Know, Sow, Grow

The popular 10-Minute University will visit the West Linn Library on Saturday, July 31, as part of the Central Village celebration.

10-Minute University classes are brief, concise, and focus on essential information all successful gardeners need. It is a program of the Clackamas County Master Gardeners. See below for a list of topics that will be covered.

If you have specific gardening questions that are not covered by these scheduled presentations, come visit the Master Gardeners at the Gardening Clinic in the library lobby. There, between 1 and 3 p.m., you will receive personalized gardening advice.

Master Gardeners are trained by the Oregon State University Extension Service to provide science-based information. To learn about the Clackamas County Master Gardeners, and for free handouts on over 20 topics, go to www.clackamascountymastergardeners.org

TOPIC	TIME
Gardening with compost	12:30
Growing vegetables year-round	1:00
